#### THE WEEK IN SOCIETY

BICYCLE POINTERS FROM NEW YORK FOR THE SMART SET.

A Run Up the Hudson-Movements of Prominent People the Last Week.

Society women in New York and the

East are greatly interested in a bicycle parade that is to be held along the banks of the Hudson, says an exchange. The exact route for the parade has not been determined, but it will be somewhere between the summer home of the Goulds and Astors, at Rhinebeck, and it will extend back into the beautiful scenery of the surrounding country, taking in the Hudson river possessions of the Rockefellers and those of the other people of wealth located along that region in summertime. It was originally the intention of the projectors of this novel parade to make it of three days' duration, allowing the company to step over night at some hospitable home and journey on next day, going up one side of the river and down the other. The intention was to start from Miss Gould's residence, at. Tarrytown, and cycle up to Rhinebeck, the home of so many wealthy summer dwellers, including Gov. Levi P. Morton, and back again, arriving at Miss Gould's home again inside of three days. But this has been abandoned on account of the distance. Many of the cyclers are women; and for them a run of twenty miles is sufficient for a day, and even at this rate, unless very expert, they do not feel like continuing the distance for three days in succession. At the parade there will surely by the Rockefellers, just as surely the Pullmans, and in all probability Miss Fair will emerge from her mourning for so mild a dissipation. Miss Herbert and Mrs. Cleveland are to be invited from Washington, with the almost certainty that the former will accept in the same post that contains the regrets of the latter, while others in the Washington circle are also to be asked to join. A bicycle parade, ike a coaching parade, would be an uninteresting affair were it not for the decorations. In this case the wheels are to be

wheels, except where the works require the hard matetial, and it is their intention to cover the machines with vines and white flowers, choosing the white laurel of The New York Recorder says: "Among the swells who are riding bicycles in Indianapolis are Mr. and Mrs. Samuel Miller. Miss Jessie Miller, F. G. Darlington, Mr. and Mrs. Augustus L. Mason, Judge McBride and daughter, Major Gould, Dr. J. N. Hurty, Mrs. John T. Brush, Thomas DeFrees, Mr. and Mrs. J. K. whose pocketbook is a very long one, will

go to the trouble of having her wheel gilded for the parade. She will then trim it from

Heinly, of Danville, Ill., to Dr. L. F. Page, of this city. Miss Heinly will be remembered as having visited friends here a year and a half ago just before leaving for Germany to complete her musi-

cal education at the Leipsic Conservatory. Mr. and Mrs. A. W. Heinly, her parents, are now in Europe and the marriage will take place in Geneva, Switzerland. Mrs. Frank Rogers gave an elegant Forget-me-not breakfast Friday, at her home in Woodruff Place, for Mrs. Worden, Mrs. Grover's guest. On the center of the table there was an immense basket of forgetme-nots, and at each plate there was a bunch tied to a card bearing an appropriate verse writen by the hostess, and which was read during the breakfast. Mrs. Worden, who recites beautifully, added much to the pleasure of the company, as did Miss Leathers and Miss Lockwood with

violin numbers. The company included Mrs. Grover, Mrs. Worden, Mrs. Fortune, Mrs. Raymond, Mrs. Russell Seeds, Miss Hull, of Lafayette, Miss Leathers, Miss Hord, Miss Lockwood and Miss Knube. The funeral of Miss Lucy Humphreys, of Marion, who was well known in this city, took place yesterday at the family rest-dence in Marion. At the funeral a most beautiful tribute to her life and character was read by Rev. J. J. Pursell, rector of Gethsemane Episcopal Church, of which Miss Humphreys was a communicant. Among other things he said, "This reposeful strength and beauty of the whole personality lifted her above the moods of caprice, the whims of the unanchored, the fitfulness of the fickle. At all times and in all places and to all persons she was, invariably, the same. In her unconsciousness she knew no looking up to human greatness nor down on human weakness. Her acquaintances received her recognition whether in silks or rags, whether white or black, and no matter whether in public or private. No one ever received a slight from Lucy Humphreys; and so she is regretted to-day, not by a coterie of choice spirits, but by all who knew the strength and sweetness of a life which is not, for God has taken it." The February class of '96 of the High School gave a reception yesterday after-noon in High School Hall in honor of the members of the June class of '95. There are about fifty members of the former class and there are ninety-six of the latter. Most of these were present. Elaborate preparations were made for the event. The several committees that were appointed endeavored to make it as pleasant as possible, and they succeeded admirably. The hall was profusely decorated with flags, which were draped over the blackboards. In the corners were cozy places arranged with rugs, couches and pillows. Other couches were here and there. Tables, with lamps, comfortable chairs, and many of the appointments of a parlor transformed the large room into a reception room. The officers of the two classes received the guests. These were, of February, '96: President, Dwight Ritter; vice president, Jeannette Herron; treasurer, John Sickler, and secretary, Anna Outland. Of the June,

The Irvington Woman's Club held its last meeting for this year on Monday afternoon at the home of Miss Viola Tibbott. The election of officers for next year was held with the following result: President, Mrs. Charles B. Clarke; vice presidents, Miss Vida Tibbott and Mrs. Thomas Thompson; secretary, Mrs. E. F. Tibbott.

The chief social event of the week was the party given on Friday evening by Mrs. E. C. Thompson in honor of the seventeenth birthday of her daughter, Miss Bona Thompson. The floral decorations throughout the house were in pink and white; in the parlors roses and carnations were used, in the dining room roses, and the favors were pink roses. The evening was spent very pleasantly in music and dancing.

MEMORIES OF JACKSON.

The Attempt to Assassinate Him Made by Lawrence.

Hartford Times. The attempt to assassinate Jackson was made at the head of the flight of stairs leading up from the main (or east) front of the Capitol on Jan. 30, 1835. Congress-man W. R. Davis, of South Carolina, had died the day previous, and he had a public funeral in the rotunda. The President, members of the Cabinet, Senators, members of the House and other officials attended. After the services the President, taking the arm of the Secretary of the Treasury, walked to the steps to take his carriage. Just then Lawrence, skulking behind one of the massive columns, aimed a pistol at the President's head at a distance of less than eight feet. It was loaded with powder and ball, and in perfect condition, as a subsequent examination showed; but for some unaccountable reason the cap only exploded. It made such a noise, however, that the crowd around the President thought a pistol had been discharged. The President, lifting his cane, struggled toward him just as Lawrence dropped the pistol and with his left hand drew another, all cocked, from his breast pocket and aimed at Jackson's head. Marvelous to relate, this second pistol also failed to explode; only the cap exploded. But it was all one to Andrew Jackson. All he wanted was (as he exclaimed) to "get at the - scoundrel," and he struggled to get through the excited crowd which now resolutely detained him. He would have rushed upon the assassin, all the same, if he had been mortally wounded-unless the bullet had gone through his head or his heart. Fear had absolutely no abiding place in that stern spirit-as was shown when, in a duel, Jackson was dangerously hit in the side, but never winced or flinched, or gave any outward sign of being hit till he had shot his opponent. His friends only found that Jackson was hit by the quantity of blood in his shoes. When Lawrence saw both pistols had failed him he tried to run away, but was caught. His fate we don't remember. The attempted nose-tweaking was by a fellow named Randolph, and it occurred some two years earlier-only two months after Jackson's inauguration for his second term. He had been, or was going, to Fred-ericksburg to attend the ceremonies of the laying of the corner stone for a monument to the mother of Washington—a column which had waited long for its completion. The steamer stopped at Alexandria, where a crowd of what appeared to be Jackson's friends rushed in to see the old hero. Jackson was in a narrow space in the cabin, between a table and the berths, where he could not well defend himself, and Randolph pushed forward as if to shake hands, but instead thrust his hand into the President's face and tried to pull his nose, but was prevented by Jackson himself and by the crowd, who pulled him back and retreated. It was never known whether they were friends or foes of the President, but Ran-dolph's enmity, like Lawrence's, had been aroused by some appointment or disappoint-Jackson's iron nerve, always ready,

showed itself on a less important occasion here in Hartford, on his visit in 1833. The writer of this paragraph, then a boy, remembers the attitude and appearance of the old here well, as he rode his horse, on that June day, through Main street, lifting his hat and displaying a mass of stiff-standing grizzly gray hair, as he bowed, right and left, to the cheering throngs on roofs and steeples and at the windows. He had ridden all the way from New York, and was sore and tired enough to dismount and have some rest; but it was not to be. True, he got off his horse when he went to the old City Hall, there to meet fresh crowds of handshakers as he passed through from the south steps to those at the north side. In that crowd was General William Hayden, a powerful man, with a grip like a vise. He prided himself on his power to outsqueeze any other man's grip-and he never met his equal. He gave Jackson one of his heartiest and worst; almost a grip to break the bones. It was a highly reprehensible act in Hayden, but here was General Jack-son—the object of his special admiration and it was now or never for Hayden. Jack-son, whose hand had already been squeezed nearly out of shape by a thousand previous pressures, never even winced at this fresh and greatest torture. He stood it like the

iron that entered into General Hayden's hard and long grip itself, and then he passed on "down the lie" for more of it; but in all his handshaking it is safe to say General Jackson never encountered such another grip as General William Hayden's.

MOST POPULAR WOMAN.

In England the Princess of Wales Retains This Title. O'Connor's Sun. There can be no doubt that the Princess of Wales is the most popular and best known woman in this empire. Charm is her chief characteristic-magnetic charm, that indefinable something that is not beauty, though beauty so helps in making it; that is not merely kindness and benignant graciousness, though without those it cannot exist; that is certainly not intellect, though it includes a line tact that beongs to the higher mental faculties; but that is a combination of so many gifts and graces that it can be neither defined nor taught. She is so pretty, so sweet, so gracious, so all those light and pleasant attributes that we sum up as "womanly."

that the affectionate feelings that are

roused by the spell of her presence are not

The Princess does not read serious books nor trouble her head about international relations or political economy. Her cleverness lies in another direction, namely, in her social gifts, and in this direction she is unrivaled. If she had been deeper natured her task might have been more irksome; but equally, on the contrary, it may be inferred, from how well she has done what she ought, that had her position made different demands on her, she might, perhaps, have met those just as well as she has, in fact, met the real situation. Sandringham is admitted by all who know it to be a perfect specimen of a country gentleman's home. The cottages on the estate are good, and the laborers well looked after. The Princess goes about the neighborhood on foot or driving herself in her pony carriage, and stops to see the cottages, just as a lady of the manor should. There is a technical school for the village, in which many arts and crafts are taught. and the Princess herself has taken lessons from its teachers in the same arts that her villagers may learn, H. R. H. becoming an excellent woodcarver and leather worker by this means. Connected with the house is "the Princess's dairy," no show place, but one in which the wants of the establishment are provided for, and the Princess herself is an accomplished butter maker, having often taken a turn at skimming the milk and "working" the butter. Such popularity as hers is a great power, and she knows it well, and takes to herself the position that naturally follows, She leads fashion because she has the courage of her own opinions on dress, and she has the same on more personal points. Her will, when she has seen cause to assert it, has been powerfully felt on sundry occa-

New York Post. President Low's magnificent gift of \$1,000,-000 to Columbia College for a library building makes, we believe, nearly six millions the college has received in gifts since he succeeded to the presidency. This may fair-ly be said to "beat the record" among American colleges, if we except the foundation of the Chicago University. It shows, too, what New York can do in the way of the encouragement of learning when once fairly appealed to. We believe it is not over twenty years since Columbia allowed it to be supposed that she stood in need of or received gifts. Since then the tide of local generosity and sympathy has been flowing towards her steadily, and she promises speedily to be one of the richest seats of learning in the world, and with money, we are sure, there will come steady growth in intellectual capacity and achievement.
The university will, in short, become worthy of the greatest city in America.
